# Strengthening global health security with OES/IHB

Project Title	Strengthening global health security with OES/IHB
Project Slimmary	Work with OES/IHB on several special projects related to the response and recovery phases of the COVID-2019 pandemic.
Country	United States

### **Project Description**

The intern would be paired with key OES/IHB action officers to research key questions and close knowledge gaps on matters available in the public domain. COVID-2019 has generated enormous flows of scientific, public policy, and diplomatic information that are ripe for analysis. The ideal intern would have a combination of technical and policy knowledge to conduct independent study projects and present on their findings.
